Music theory and history. Major instrument, piano, minor, voice. English literature, German language, plane trigonometry. Singer in chorus and men's group for four years.

## Awards

Honors and Dean's list every semester.

## Other Skills

In addition to my radio skills, I have studied acting since the mid-eighties. I have had the fortune of performing in many award winning plays in Miami and Los Angeles. Film and TV are included in my resume'. I have written several one act plays as well as having short stories published and pitching two TV pilots I wrote; "Tropic Air" and "Muscle Shoals", two comedies based on personal experience in the flying world and sixties music. You can find more info on these at [davidcaprita.com](http://davidcaprita.com).

I love flying, sports, snow skiing, stand up, poker and backgammon. I am frightfully good at the last two.
